- Commerciality

STANDARDS AUSTRALIA 

Integrity™ 9430

FRAMED PIVOTING SHOWER SCREEN SYSTEM WITH FRAMELESS DOOR

Integrity™ 9430 represents a Good Design® Selection award winning product, featuring a low profile twin tiered sill design.

Advanced Sill Design

Contoured fully enclosed twin tiered sill design directs water run-off into shower base. Gasket sealing system ensures maximum water resistance. Low profile design is foot-friendly, unobtrusive and reduces external splashing for a cleaner, drier and safer bathroom.

Handle Selection

An extensive range of handles are available in your choice of powder coated and gold, chrome or satin chrome plated finishes.

Components

Component and design features combine to provide convenience and colour co-ordination.

- Snap Caps
- Dress Trims
- Pivot Blocks
- Anti-bacterial clear (i.e. frost) and colour matched glazing vinyl

Water Resistance

4mm spacing at the sill significantly improves water resistance and eliminates splashing.

Patented Pivot Mechanism

Utilising a stainless steel pivot pin, the Integrity™ 9430 Shower Screen System features a 'positive close' low friction design mechanism, providing the benefit of whisper quiet and trouble free operation.

The 'lowering' effect of the design automatically reduces the gap between door and sill on door closure, which further assists with elimination of external splashing and improved water resistance.

Integrated Fixed Panel

Fixed panels (where required) are glazed directly into the outer frame, minimising the potential for residue accumulation.

Exceptional Value

Integrity™ 9430 provides the opportunity to indulge your imagination and create the absolute premium bathroom design at a surprisingly affordable price.

Low Maintenance

Smooth contoured profiles minimise soap and residue accumulation and the need for cleaning.

Glass Size

Designed specifically for use with four (4), five (5) and six (6) mm toughened glass. Will accept 6.38 mm laminated safety glass if desired.

Design Flexibility

Integrity™ 9430 Shower Screen Systems can be designed for installation into most bathrooms. Ask your distributor for advice on a design to suit your needs.

Safety

Integrity™ 9430 Shower Screen Systems are glazed to comply with the requirements of Australian Standards AS2208 and AS1288.
